Fitting & Showing Market Lambs

Show your lamb to its best advantage with advice given by someone with more than 20 years of experience in the club lamb industry. Areas addressed and demonstrated include equipment, washing and rinsing, proper slick clipping techniques, preparation needs for each of the four types of sheep, finishing touches (hair conditioner, carding, combing), feeding and pre-ring touch-ups. Post-shearing advice is given for blanket and sweater use. Showmanship is fully covered. A supplement is included.

CEV00212 (VHS/DVD) \$75.00

Sheep Management Practices—I

Students and beginning sheep producers will benefit from the advice given by the specialist in this presentation. The specialist introduces viewers to reasons for and value behind good management practices in the sheep industry and explains characteristics of sheep, requirements for housing and facilities, techniques for handling and restraint. He also explains procedures for lambing, docking and castration. A supplement is included.

CEV00214 (VHS/DVD) \$79.00

Sheep Management Practices—II

Providing extended instruction in the raising and management of sheep, a sheep specialist describes the characteristics of various breeds and explains health concerns such as internal and external parasites and their control. He also shows how to properly trim hooves and demonstrates shearing techniques. A supplement is included.

CEV00215 (VHS/DVD) \$79.00
